

# AQUADOMUS

## WHAT IS IT

Aquadomus is an integrated 'Plug&Play' system to manage water pressurization for domestic and residential applications. It consists of a Pentax multistage pump, a permanent magnet synchronous motor, an electronic inverter control, an expansion tank, a no return valve and a pressure sensor. The electronic control (E-IPFC) manages the operation of the system in order to maintain the pressure constant even if the conditions of use change.

## MAIN USES

Water supply and pressurization for domestic and residential installations

## APPLICATIONS

Aquadomus manages domestic pressurization in an optimized way up to a maximum of 5.4 m<sup>3</sup>/h or up to 60 meters of head

	1 STOREY	2 STOREYS	3 STOREYS

## PERFORMANCE

### Adaptable performances

The electronic control (E-IPFC) manages the operation of the system to maintain the pressure constant even if the conditions of use change

## PLUS

Constant pressure even if the conditions of use change

Dedicated Pentax IPFC App for programming and monitoring (compatible with iOS and Android)

Easy Installation with "Plug & Play" system

Accessibility to all Components

Energy Saving
